FROM: Frank J. Filas, Reclamation Engineer 

RE: Site Inspection, DOE/019/009, T.I.G.R.

On June 3, 1987, Frank Filas of the Division and Jerry Mansfield of State Lands attempted to inspect this mine site on ML35515. The site is located atop Blue Cliff Mesa, and the steep access road is no longer passable.

The mine is an old, prelaw mine that T.I.G.R. planned to reopen. State Lands' records indicate that no mining has taken place since T.I.G.R. acquired the lease which is due to expire in 1988. Photographs in the file substantiate the small, less than two acres, size of the operation.
